The Whigs of the United States, in Convention assembled, firmly adhering to the great conserva-tive republican principles by which they are con-trolled and governed, and now, as ever, relying upon the intelligence of the American people, with an abiding confidence in their capacity for self-government and their continued devotion to the constitution and they begin in the felconstitution and the Union, do proclaim the following as the political sentiments and determina-tions for the establishment and maintenance of which their national organization as a party is

1. The government of the United States is of a fimited character, and it is confined to the exercise of powers expressly granted by the constitution, and such as may be necessary and proper for carrying the granted powers into full execution, and that all powers not thus granted or

necessarily implied are expressly reserved to the states, respectively, and to the people.

2. The State governments should be held secure in their reserved rights, and the general government sustained in its constitutional powers, and the Union should be revered and watched over as "the palladium of our liberties." 3. That, while struggling freedom everywhere

we still adhere to the doctrines of the Whig party, we still adhere to the doctrines of the Father of its Country, as announced in his Farewell Adhers, of keeping ourselves free from all entangles. ling alliances with foreign countries, and of over quitting our own to stand upon foreign round. That our mission as a republic is not to ropagate our opinions, or impose on other countries our form of government by artifice or force, but to teach by example, and show, by our success, moderation, and justice, the blessings of self-government and the advantages of free in-

4. That where the people make and control the government, they should obey its constitution, laws, and trenties, as they would retain their selfrespect and the respect which they claim and

will enforce from foreign powers.

5. Government should be conducted upon prin ciples of the strictest economy, and revenue sufficient for the expenses thereof, in time of peace, ought to be mainly derived from a duty on imports, and not from direct taxes; and in levying such duties, sound policy requires a just discrimination, and protection from fraud by specific duties when practicable, whereby suitable encouragement may be assured to American industry, equally to all classes and to all portions of the

6. The constitution vests in Congress the power to open and repair harbors, and remove obstruc-tions from navigable rivers; and it is expedient that Congress should exercise that power, whenever such improvements are necessary for the common dafence, or for the protection and facility of commerce with foreign nations or among the States; such improvements being, in every in-stance, national and general in their character.

7. The federal and State governments are parts of one system, alike necessary for the common prosperity, peace, and security, and ought to be regarded alike with a cordial, habitual, and immovable attachment. Bespect for the authorty of each, and acquiescence in the constitu-ional measures of each, are duties required by the plainest considerations of national, of State, and of individual welfare.

8. The series of acts of the 31st Congress com-

monly known as the Compromise or Adjustment (the net for the recovery of fugitives from labor included) are received and acquiesced in by the Whiga of the United States as a final settlement, in principle and substance, of the subjects to which they relate; and, so far as these acts are gonderned, we will maintain them, and insist on their strict enforcement, until time and exique shall demonstrate the necessity of fur-

ther legislation, to guard against the evasion of the laws on the one hand, and the abuse of their powers on the other-not impairing their present efficiency to carry out the requirements of the constitution; and we deprecate all further agitation of the questions thus settled, as dangerous to our peace, and will discountenance all efforts to continue or renew such agitation, whenever, wherever, or however made; and we will main-tain this settlement as essential to the nationality

of the Whig party and the integrity of the Union.

THE LOST SENSES: DEAFNESS AND BLIND-

THE LOST SENSES: DEAFNESS AND BLIND-NESS. By Dr. Kitto.

"This is a work of great interest, from one of the most learned said accomplished writers of the age, revealing the mysteries of the world in which those live who have been deprived of the sense of sight or hearing. Ever since his boylood, for more than thirty years, Dr. Kitto has passed a life of great activity as a scholar, in a state of the most intense deafness to which any living creature can be subjected. His account of himself, and or his discrimina-ting remarks on the condition of the blind, (James Mitchell, Laura Bridgeman, and others,) are replete with profound thought on the interesting phenomenon presented in the progress of their mental training,"—Christian Observer.

MACHINE FOR CRUSHING, GRINDING, AND PULVERIZING.

Recently Patented in this Country and Europe.

(I) CHRAN'S PLANDSPIRSICAL QUARTS CRUSHING AND PULVERIZING MACHINES are now in daily operation for the inspection of the public, and will be submitted to any reasonable practical tests proposed by parties interested.

These machines, by their simplicity of construction, their durability, the undoubted principles upon which they operate, their effective operation and result, are justly entitled to the consideration of all parties engaged in grinding, crushing, and Pulverizing Quartz, Iron Ore, Zinc, Copper, and Lead Ores, and all other Ores or Mineral substances.

It is the peculiar feature of the economy of these machines that they are found capable of crushing and pulverizing into the finest powder any amount of Quarts or other earthy matter, in proportion to the amount of weight or power applied. The earthy matter is so completely ground and pulverized, that the Gold may be easily separated, and subjected to any process of amalgamation that may be recessary.

The machines work and deliver wet or dry, as may be required, and run with little friction, (being almost without machinery,) requiring no lubricating; the principle upon which they operate precludes the possibility of their being pulverized. They are at once applicable for all purposes of grinding and pulverizing, from those required by the Druggist to those of the most extensive operations in California and Australia.

These machines are from two to twelve feet in diameter, with balls or spheres from three inches to five feet in diameter, with balls or spheres from three inches to five feet in diameter, with balls or spheres from three inches to five feet in diameter, so machine weighing from 250 pounds to 20 tonsech, and are sold, with the right to use them, at from \$100 to \$5,000 each.

They can be worked by steam, water, horse or manual Recently Patented in this Country and Euro

each, and are sold, with the right to use them, at from \$100 to \$5,000 each.

They can be worked by steam, water, horse or manual power, according to their size; and by changing the velocity and proportioning the weight on the top of the balls, any desired amount of power may be used, from that of a man or horse upward.

The proprietors of this invention solicit examination, and well prove by practical tests the vast superiority and economy of these machines over any other, for crushing, grinding, or pulsarizing, heretofore offered to the public.

These machines may be seen in operation at the foot of South Eighth Street, Williamsburgh, at the large Patent Block and Saw Factory of Messrs. Burr, Waterman & Co., first street south of Peck Slip Ferry, every day, from 7 to 9 a. m., and from 4 to 6 p. m. For further particulars, apply to

School of Town footurers, and Inventors.

Mechanics, Manufacturers, and Inventors.

Mechanics, Manufacturers, and Inventors.

THE Eighth Volume of the SCIENTIFIC AMERICAN commences on the 18th of September. It is principally devoted to the diffusion of useful practical knowledge, and is eminently calculated to advance the great interests of industry—Mechanical, Manufacturing and Agricultural—the genius and master-spirit of the nation.

It is unrivalled as a Journal of the Arts and Sciences, and maintains a high character at home and abroad.

The publishers pledge themselves that the future volumes shall at least equal, if not surpass their predecessors. Among the subjects chiefly brought forward and discussed in its columns, are Civil Engineering, Architecture, Railroads, Bridges, Arricultural Implements, Manufactures of Metals, Fibrous and Textile Substances, Machinery for the purpose, Chemical processes, Distilling, Coloring, &c., Steam and Gas Engines, Boilers and Furnaces, Mathematical, Philosophical and Optical Instruments, Cars, Carriages, Water Wheels, Wind and Grinding Mills' Powers, Planing Machines, Tools for Lumber, Brick Machines, Farming, Birs Arms, Electricity, Telegraphs, Surgical Instruments, &c., besides Claims of all Patents, Reviews, Notices of New Inventous, American and Foreign. The work is in form for binding, contains several hundred Engfavings, over four hundred pages of printed matter, and a copious Index. Nearly all the valuable Patents which issue weekly from the Patent Office are illustrated with Engravings in its columns, thus making the paper a perfect Mechanical Encyclopedia for future as well as present reference.

Valuable Premiums are offered for the largest list of Subscribers to this Volume. It is published weekly by MUNN & CO., at thely Patent Agency Office, 128 Fulton street, New York.

TERMS—ALWAYS IN ADVANCE.

TERMS-ALWAYS IN ADVANCE

KRAUSER'S PATENT CLOVER-SEED HAR-

KRAUSER'S PATENT CLOVER-SEED HARVESTER
IS REFORE THE PUBLIC FOR THE FIRST TIME
I'S utility is beyond comparison with any other farming
implement now in use. It takes the seed from the field,
leaving the straw or grass all standing. It weights two hundred and fifty pounds, is drawn by one horse, and gathers
from ten to twelve acres per day. The fingers, or teeth,
catch all the heads, the revolving knives cut them off and
throw them back into the box, which will cross a twentyscre field without emptying. The heads are then loaded
into a wagon and taken directly to the mill for cleaning,
thus diminishing the labor three-fourths, and saving all the
seed. This machine comes so low that every farmer will
have it, and pays the manufacture 300 per cent.
E. WHEELER, Agent for Washington.

CROSS KEYS, WASHINGTON TOWNSHIP, CAMDEN CO., N. J.,
September 4, 1851.

We, the undersigned, do certify that we have seen M
Krauser's Patent Clover Harvester in operation, and it hi
given perfect satisfaction. It has gathered many of th
farmers' clover in this neighborhood—it is all that Mr. Krauser and his bills represent it to be. The farmers have give
one-half for gathering and threshing.

JAMES D. TIMBERMAN, JOSEPH DEWALD,
WILLIAM P. GLAWROD, JOHN F. COOK

JAMES D. TIMBERMAN, WILLIAM P. GARWOOD WM. C. NICHOLSON, JAMES COLLINS, CHARLES LEWIS, THOMAS TUMBLESON, JOHN F. COOK, JAMES B. COOK, JAMES BRISON, PETER H. JONES.

Long-a-Coming, October 7, 1851.

This is to certify that Mr. G. J. Naylor has gathered clow off of a sixteen-sare field of mine, which has been pasture two months with ten head of cattle, and it produced a bushels and a half and one peck of seed. I gave him twiching for gathering and cleaning. I think his machine first-rate, and answers all the purpose that is intended.

NEHEMIAH NICHOLSON.

The following points out the profitable nature of the larvester:

iarvester: KRAUSER'S PATENT CLOVER-SEED HARVESTER. We have conversed with a number of Farmers, and they are of opinion that there are at least 3,000 acres in each town-hip in Camden or Gloucester county, New Jersey. Admit-ing there are but 1,000, it is said that each acre will yield

Cost of harvesting, &c., 1,000 acres...

have found them to agree unammous, culation.

Ferhaps no invention offers greater inducements for profitable investment than the Harvester. For an enterprising young man, of good business habits, a large sum money could without doubt be realized from the sale rights in the different States of the Union not yet disposof. By calling at this office, it can be demonstrated satisf torily that men of moderate capital could not choose a better that the sale of the union of moderate capital could not choose a better that the sale of the union of moderate capital could not choose a better that men of moderate capital could not choose a better that the sale of the union of moderate capital could not choose a better that the sale of the union of of

or more money-paying business.

Those who wish to see a model of this celebrated farmin mplement, and the satisfactory manner in which it operate mplement, and the satisfactory manner in which it operates an do so by calling at B. WHEELER'S,

Hampton's Vegetable Tincture!

ORAL TESTIMONY.

THOUSANDS feel it a duty to talk to their affilicted friends of the benefit derived from HAMPTON'S VACETABLE TINCTURE. From day to day we have given the certificates of curse performed on our best-known citizens, and still we have a perfect avalanche of letters pouring in upon us—all, all giving a weight of testimony that must convince the most skepfical. All are invited to call and read for themselves. The letter below is from one of the first mercantile irrins. To those who know them, it must carry conviction, and induce many sufferers to give this Tincture a trial: ORAL TESTIMONY.

must carry conviction, and induce many sufferers to give this Tincture a trial:

**Post Royal, Va., July 27, 1862.

**Messra: Mortimer & Montray: Gents: We have again to send an order for more of your truly wonderful Hampton's Vegetable Tincture. Since it was first tried it has sold without an effort, and we have not seen the first person who has not been greatly benefited by its use. A gentleman of our neighborhood was induced to try the "Tincture" for a violent papitation of the heart. He had suffered so much from it that he said he had prayed for death. He had taken but three doses when he assured us he would not take five hundred dollars for the benefit he had derived, and that he should never cease to remember us with gratitude for calling his attention to so valuable a medicine. Yours, truly,

GRAY & PENDLETON.

The Whole World. Attention'—Hear him, we sick.

The Whole World, Attention!-Hear him, ye sick, and do likewise!!

and do likewise!!

BALTIMORE, Feb. 9, 1852.

Messrs. Mortimer & Mosebray: Gentlemen: It is with real pleasure that I am able to attest to the general healing and curative powers of Dr. Hampton's Vegetable Tincture. Sometime during last November I was taken with a very bad and serious cough. I was advised to take Cod-Liver Oil, and did so; but getting no better, I was induced to try your Tincture. I got one bottle, and before I had used it all my cough left me. Permit me also to state that, for the last fifteen years, I have suffered very much from Acute kheumatism and Vertigo, confining me at times to my bed. I am fully convinced that I owe my present good health to the nse of the Tincture, and a kind Providence.

You are, my friends, at liberty to use this as you may think proper; and believe me, yours, very respectfully.

N. B.—I can be seen at any time at the Mayor's office.

N. B.-I can be seen at any time at the Mayor's offi

THE ALMOST MIRACULOUS CURES made by Hamp on's Vegetable Tincture on our most respectable cleas—men well known and tried—we challenge the won a how anything on record in medicine to equal it. Manuadred who have felt its healing powers bear the same testing.

Messrz. Mortimer & Moubray: Gents: Last September I was attacked with crysipelas, from which a dreadful ulcer formed on my right leg. Getting better of this, last November I took a deep cold, which led to what my physician told me was billious pleurisy, which left me with a constant, deeply-seated, and painful cough, having no rest day or night, and constantly throwing up from my lungs a thick matter. I became much emaciated, growing weaker every day, and keeping my bed the greater part of the time. My friends thought I had the consumption, and at times I was also of the same opinion. At this stage of my disease, after having tried many and various remedies, without success, a friend advised me to try DR. HAMPTON'S VEGETABLE TINC-TURE, and procured me a bottle, which I now pronounce the greatest medicine I ever took. Before I had taken half the contents of one bottle I felt much improved: and now, having taken but two bottes, my cough and pains have entirely left me, and I am enabled to attend to business. I can truly say that, with the blessing of God, I have been restored to the health I now enjoy by the use of this most invaluable medicine.

of suffering!

Were there not real virtue in this wonderful medicine, could it perform the astonishing cures made by it?

Nournantron Co., April 13, 1852.

Messrs. Tyler & Adair: I have been affilicted with Rheumatism, at times, from my twelfith year; I will be fifty years of age the 18th of this month; the attacks were at times so severe as to render me helpless; I have tried various remedies to very little effect. Last October I was attacked in my shoulders, sides, back, and hips; I could not rest, day or night; I could not move any part of my body without crying with pain; at this time I also tried many remedies, internal and external, without receiving any rollef; I was at last advised to try HAMPTON'S VEGETABLE TINCTURE; before I had taken one bottle of which I felt much better, and as I continued taking it I felt strength coming into my back and limbs, and my stomach strengthened and revived every way; I have taken five bottles, and am much better than I ever expected to be. I intend to use it whenever I need it, and would recommend it to the affilicted, believing it unequalled.

Yours, ELIZABETH BAGWELL.

REV. VERNON ESKRIDGE, U. S. N. REV. VERNON ESKRIDGE, U. S. N.

Portsmouth, (Va.,) Aug. 18, 1851.

Mr. J. E. Boush—Dear Sir: While I am in general opposed to Patent Medicines, candor compels me to state that I have great confidence in the virtues of Hampton's Vegetable Tincture. For several months past I have used it in my family, and in Dyspepsia, loss of appetite, dizxiness, and general debility, with entire success. So far as my experience extends, therefore, I take pleasure in recommending it to the afflicted as a safe and efficient remedy.

I am, respectfully, yours, VERNON ESKRIDGE, Chaplain in the U. S. Navy.

HAMPTON'S VEGETABLE TINCTURE, by its mild ac-tion on the Stomach, Liver, and the Kidneys, will cure Dys-pepsia, Cough, Asthma, Bronchial and Lung Affections; Fains in the Back, Side, and Breast; Consumption, Scrofula. Rheumatism, Gout, Neuralgia, Fistula, Piles, Bowel Com-plaints, Worms, Nervous Debility—with all diseases arising from impure blood, and is the greatest Female Medicins ever known.

NEW SEVENTH STREET BOOK-STORE,

CRAY & BALLANTENE having secured commodious of and convenient premises in Seventh street, two doors above Odd Fellows' Hall, (opposite the old stand of A Gray,) offer a new and beautiful assertment of Religious Books, selected with great care by one of the firm, to which they invite the attention of the Christian public.

They would also respectfully state, that having become the general agents in this city for the sale of the publications of Robert Carrier & Broyners, and of the Mirrioners Boot Concern, they will always have a complete supply of their respective publications on hand.

They will also keep a general assortment of the publications of the Presbyterian Board, American Tract Society, American Sunday School Iloharsies, will be very extensive.

Their assortment of Juvenus Books, and Works suitable for Sunday School Ibdraries, will be very extensive.

The Depository of the Washington City Bible Society is transferred to their store. Neat Bibles at 25 cents, and Testaments for 6½ cents.

It will be their ambition and pleasure to keep such an assortment of Religious Books as will entirely supply the increasing demand for this kind of literature,

They earnestly solicit the co-operation of Christian friends in the great and important work of widely circulating this class of publications, and thus counteracting, in some degree, the deleterious effects of the light and corrupt reading that is flooding the country to such a fearful extent.

In addition to their extensive assortment of Religious Books, which comprise all the best standard and miscellaneous works of that class, they will keep constantly on hand a great variety of valuable Historical, Miscellaneous, and Juvenile Works of unexceptionable character; Books of Sacred Music; Hymn Books, such as are used in all the different Churches; Bibles and Prayer Books, in every variety of binding, and at all prices; Albums, Annuala, and beautiful Girl Books; splendid Family Bibles; and School Books of every kind in use, at the lowest prices.

A. GREEN. NOTICE.

Protection from Lightning.

The undersigned, being the duly appointed Agent of Spraty's Klecthican and Electro-Metallurgust Lightning.

The undersigned, being the duly appointed Agent of Spraty's Klecthican and Electro-Decidity and these superior Rods, of Spiral-twisted, Carbonized Annealed Iron, with Zine Protectors, and Electro-Decidity elements combined in their manufacture; thus rendering them equal to copper as conductors. They are in ten-feet lengths, with accurately-fitted brass-screw connecting foints, an entire new style of metallic (patented) attachments, for brick or frame buildings; also, glass isolaters, of a novel and ingenious construction, (patented), forming a lock; the whole mounted with a solid platinum silver point, (patented,) twelve inches long, surrounded at the base with three angular negative magnets, which possess the power, to an extraordinary extent, of discharging the opposite elements of the most fearful thunderstorm, and embrace the entire perfection of selence up to the present time; the whole constituting the most magnificent and perfect silent conductor ever presented to the public.

Safety has not been compromised by affording these excellent rods at such low rates; the greatest attention has been given to their construction, so as to be readily attached. The astonishing power of the negative magnets, in discharging the air of its opposite elements, has been clearly demonstrated by the Electrometer, when unmagnetized points have shown but slight results, though placed under the same conditions. In fact, they gather and silently discharge electricity from the atmosphere when you would scarcely suspect any being present.

These improvements being secured by double letters patent, you are hereby cautioned against laying yourselves liable, by purchasing of those who are not authorized, or who are substituting inferior imitations. All agents duly appointed can show their certificates. Have good rods or none.

CHARLES W. HEYDON, Protection from Lightning.

chloric acid. With the first, there was no action on the netal; with the several acids, there was very slight—a fact sufficient to show that atmospheric influences would have so sousible effect.

J. A. C. IARDELLA,

PROFESSOR OF MUSIC,

RESPECTFULLY informs his pupils and the public that his season of instruction will terminate on Friday, the thinst, and that his duties will be resumed on the 10th of September. Thankful for the patronage he has hitherte.

The Lightning Conductors of Mr. Spratt, effered to me, are well calculated to perform the office for which they are intended. Yours, truly, Prof. ROBT. PETER. LEXINGTON, KY., February 20, 1850.

intended. Yours, truly,

Lexinoton, KY., February 20, 1850.

Chicago, September 3, 1850.

This may certify that I have examined, somewhat critically, James Spratt's Patent Lightning Rods, and that I am of opinion that it is constructed on scientific principles. For combining durability, cheapness, and efficacy, I deem it equal, and I think superior, to any other rod ever offered for my inspection.

AUGUSTA, (GA.) November 11, 1850.

This will certify that I have examined the Lightning Rods, Metallic Points, and Isolating Attachments, manufactured by Mr. Spratt, and regard them as constructed in conformity to the general laws of the electric fluid; and the metallic compound constituting the Points, as promising, from the result of several tests to which they were submitted, to realst for years the action of those atmospheric causes most likely to corrode them.

A. MEANS,

Prof. Phys. Sc., Emory College, Ga., and Prof. Chem. and Pharm., Medical College, Ga.

The Lightning Conductors put up by Mr. Henry M. Smith, of this city, on the plan of Mr. Spratt, appear to me to be very well devised; and, in point of mechanical construction, are the best I have ever seen.

It is to be hoped that the use of these Rods may become general, as an important auxiliary defence against a denger which must be regarded as of no ordinary magnitude, to which all buildings are liable.

R. SILIMAN, Jr.,

Prof. of Chem. in the University of Louisville,
Louisvilla, January 27, 1851.
